

Help our sanctuary caregiver!

Maddi Cobb, an animal caregiver at our Black Beauty Ranch in Texas, is delivering afternoon snacks when her list falls into a water bucket. Help Maddi figure out which animal gets which treat.

For this logic puzzle, use the following clues and the process of elimination; mark "X" for impossible pairings and "✓" for confirmed pairings on the grid below. (No animals are the same age, and each has a different favorite treat.)

Clues

- The oldest animal enjoys Nicker Makers.
- Dried cranberries are Cali's favorite treat.
- Jake, who is younger than Ross, loves apples.
- A.P. Indy is not a pig or a red kangaroo.
- The donkey is the only animal older than Ross.
- The red kangaroo is four years younger than the oldest animal.
- The common marmoset is younger than both Ross and Jake.
- The animal who prefers bananas is exactly four years older than Cali.

Answers

Ross, the red kangaroo (species), who is 11 (age) years old, gets the banana (snack).

Cali, the common marmoset (species), who is 7 (age) years old, gets the dried cranberries (snack).

Jake, the pig (species), who is 10 (age) years old, gets the apples (snack).

A.P. Indy, the donkey (species), who is 15 (age) years old, gets the Nicker Makers (snack).
