

Help our sanctuary caregiver!

Maddi Cobb, an animal caregiver at our Black Beauty Ranch in Texas, is delivering afternoon snacks when her list falls into a water bucket. Help Maddi figure out which animal gets which treat.

For this logic puzzle, use the following clues and the process of elimination; mark "X" for impossible pairings and "✓" for confirmed pairings on the grid below. (No animals are the same age, and each has a different favorite treat.) Visit humaneworld.org/logicpuzzle for the answers.

Clues

- The oldest animal enjoys Nicker Makers.
- Dried cranberries are Cali's favorite treat.
- Jake, who is younger than Ross, loves apples.
- A.P. Indy is not a pig or a red kangaroo.
- The donkey is the only animal older than Ross.
- The red kangaroo is four years younger than the oldest animal.
- The common marmoset is younger than both Ross and Jake.
- The animal who prefers bananas is exactly four years older than Cali.

Your answers

Ross, the _____
(species)
who is _____ years old, gets
(age)
the _____.
(snack)

Cali, the _____
(species)
who is _____ years old, gets
(age)
the _____.
(snack)

Jake, the _____
(species)
who is _____ years old, gets
(age)
the _____.
(snack)

A.P. Indy, the _____
(species)
who is _____ years old, gets
(age)
the _____.
(snack)
